

PIPES XI CONFERENCE

4 & 5 SEPTEMBER 2017

Emperors Palace Convention Centre
Johannesburg

www.pipesxiconference.co.za

Conference Topics Include:

Raw Materials • Additives • Life Cycle • Pipe Material Design • General Interest • Case Studies
Application • Rehabilitation • Standards • Testing • Certification • Installation • Associations.

SAPPMA is extremely excited and privileged to present PIPES XI in conjunction with the Plastic Pipe Conference Association (PPCA) on 4 & 5 September 2017. As you may know, PPCA hosts the biggest international pipe conference every second year in either Europe or the USA. Their spin-off conference, which is organised every alternate year, is coming to South Africa this year! The South African edition of the conference will this year include at least 10 of the best papers from PIPES XVIII, which was held in Berlin in 2016.

This is in addition to our usual line-up of national and international speakers. The conference will take place over two days to provide for an outstanding offering to our industry. Over 35 speakers will present their papers at this two day event. This is an event you cannot afford to miss.
