

## BEVERLEY MANIKUM

Beverley is the Senior Specialist Marketing: C2 value chain at Sasol Base Chemicals. Since 2005, her career within the Sasol polymer businesses has spanned roles within plant engineering on the VCM Monomer plant, technology development, polymer sales, in business analysis, and within the market analysis field for both polyethylene and PVC.

Beverley's current role and portfolio include the LDPE, hLLDPE and PVC products produced at Sasol's Midlands site in Sasolburg. She is responsible for the maintenance and enhancement of all aspects of the marketing mix envelopes for these products, with specific focus on product strategy, supply and pricing management.

Beverley holds a BSc Chemical Engineering degree from UKZN, a BCom Business Management degree from UNISA and an MBA from Edinburgh Business School.
