

NORBERT JANSEN

Dipl. Ing. Norbert Jansen, Borealis Polymere GmbH, Burghausen, Germany

Application Marketing Manager PE Pipe Infrastructure

PE100+ Association Board member

Norbert Jansen, born in 1962 in Germany, finished his degree as mechanical engineer (Dipl.Ing.) at the Fachhochschule Niederrhein Krefeld, Germany in 1987.

In 1988 he started at Neste Chemicals in Germany as a Sales Manager in the Business Unit for Blow- and Injection Moulding of Polyolefines and joined the Business Unit Pipe in 1991.

In 1994, Neste Chemicals and the petrochemical activities of Statoil were combined in a new joint venture under the name BOREALIS, today owned by Mubadala Investment Company United Arab Emirates and Austrian OMV.

In 2004 he was Application Marketing Manager for Hot & Cold water plastic pipe systems with worldwide responsibility for the PE-X and PP-R in-house piping materials and after that in 2008 Application Marketing Manager Oil and Gas with global product and technical marketing responsibility for the steel pipe coating product range of Borealis AG.

Since July 2015 Norbert is now Application Marketing Manager PE Pipe Infrastructure for Borealis, active in addition in the PE100+Association board, in TEPPFA and in DIN, CEN and ISO Standardization committees.
